

Charger Stands

Every Electric Forklift needs charging

Introducing the Charger stands from CAPS.

CAPS have developed a number of charger mounting solutions which can be used for either pull up charge or over our roller bed range. To the simplest form, CAPS offer wall mounting brackets through to 3m long charger stands all with options of retractors to keep charger cables from getting damaged. Our final offering is the STR charger frame which can be delivered flat packed and assembled onsite.

Charger **Gallows**

The Gallows can handle chargers that have the option to be back mounted. This is an ideal solution for park and charge stations through-out a warehouse and with the use of a retractor keeps any cables off the floor. (Floor fixings are provided, fixing to the floor is required and fitting of chargers is not included)

Options:

- *Single or double*

Charger – **Pews**

Basic charger pews can be used for single standing chargers with the option of gallows post mounted to rear of pew so a retractor can be used. Pews can be floor fixed or free standing. (fitting of chargers is not included)

Options:

1. *Gallows post and retractors*
2. *Floor fixings*

Charger Stands

Every Electric Forklift needs charging

Introducing the Charger stands from CAPS.

Charger **Stands**

Our standard charger stands are available from 1.2 – 3m with options from back mounted or free standing chargers. The options for retractors or fixed plugs make these charger stands ideal for pull up charge or to stand over roller beds. (Floor fixings are provided. Installation maybe required, fitting of chargers is not included)

Options:

- 1.2m wide foot mounted chargers
- 1.2m wide back mounted chargers
- 2.3m wide foot mounted chargers
- 2.3m wide back mounted chargers
- 3.0m wide foot mounted chargers
- 3.0m wide back mounted chargers
- Retractors

Charger Stand – **Flat packed**

Basic charger frame for free standing chargers, DC plugs to be mounted on charger stand. Charger stand to arrive in kit form and assembled onsite. Wooden shelf as standard. (fitting of chargers is not included)

Options:

1. 1.2m wide foot mounted chargers
2. 1.2m wide back mounted chargers
3. 1.8 wide foot mounted chargers
4. 1.8 wide back mounted chargers
5. 3.0m wide foot mounted chargers
6. 3.0m wide back mounted chargers
